I am Aryan, an 11th grader at Alliance Academy for Innovation in Forsyth County, Georgia, and I'm enrolled in the Criminal Investigations and Legal Services pathway. As my school is a career/technical oriented school, the Soft Skills program has further helped me be better prepared for the real world. I loved learning through the amazing interactive program that sharpened my essential soft skills such as critical thinking, problem solving, communicating effectively, and much more. This credential will provide value to not only my resume and portfolios, but to me as a person. With this credential I will be able to show employers that I am ready for the challenges and situations that take place every day at work, and that I am capable of handling them efficiently and properly, producing the best outcomes for the goals and missions of the workplace. I am very thankful to have been able to take advantage of this amazing opportunity to elevate my career-readiness. I highly recommend this program to anyone, anywhere, who is looking to elevate their value in the essential

school or Saturday enrichment program solution.
